

\$5 per Month Minimum Withholding Requirement is Repealed.

[HB 2001](#), passed by the legislature during the current special session and signed by the Governor (on October 24, 2003), repeals the minimum withholding of \$5 per month that was enacted last regular session. The bill has an emergency clause, which makes it effective upon signature of the Governor. Therefore, as of October 24, 2003 there is no minimum withholding requirement.
